

# Preventive Services

## Staying on top of your preventive care can help you:

- Track vital numbers like your blood pressure and cholesterol levels
- Get immunizations to help you avoid illness

Under your health plan, you can get preventive care services at no cost.<sup>1</sup> While all Kaiser Permanente service areas cover basic preventive care, you'll find additional benefits in certain states and Washington, D.C. <sup>1</sup>The preventive services in this flier also apply to all grandfathered and retiree-only large group plans that cover these services at no cost and all grandfathered small group plans in the state of California.

<sup>2</sup>Grandfathered plans are plans that have been in existence since, on, or before March 23, 2010, and that meet certain requirements. Grandfathered plans are exempt from some of the changes required under the Affordable Care Act, including those related to preventive services, and may have a cost share associated with these services. If a member is enrolled in a grandfathered plan, this will be stated in their *Membership Agreement, Disclosure Form, and Evidence of Coverage or Certificate of Insurance*. Also, grandfathered plans may not cover all services listed in this document, such as over-the-counter drugs. Members enrolled in grandfathered plans can also contact our Member Service Contact Center at 1-800-464-4000 (TTY 711), 24 hours a day, 7 days a week (closed holidays), to inquire into their plan's coverage of specific preventive care services.

<sup>3</sup>Breast pumps and certain over-the-counter drugs may not be covered in plans that do not include ACA preventive package (see your *Evidence of Coverage, Membership Agreement, or Certificate of Insurance* for details).

<sup>4</sup>In September 2015, the United States Preventive Services Task Force determined that current evidence is insufficient to assess the balance of benefits and harms of screening of iron deficiency in pregnant women to prevent adverse maternal health and birth outcomes. Despite this determination, Kaiser Permanente will continue to cover this service as preventive.

<sup>5</sup>In September 2015, the United States Preventive Services Task Force determined that current evidence is insufficient to assess the balance of benefits and harms of pharmacotherapy interventions for tobacco cessation in pregnant women. Despite this determination, Kaiser Permanente will continue to cover this service as preventive.

<sup>6</sup>Prenatal services are covered as routine base medical services that are included in global billing for maternity services, which may be subject to cost sharing, as permitted by applicable law.

<sup>7</sup>Most self-funded groups are not subject to state mandates. Some self-funded state and local government groups may not be subject to state mandates. For more information, see your *Summary Plan Description* or talk to your employer's benefits administrator.

<sup>8</sup>California health savings account-compliant plans do not cover postpartum visits without a copay, coinsurance, or deductible.

Information last updated August 2018.
